Chardon Township Wastewater Treatment Plant and Sewer Project Update

- 1) There are 40 homes connected to the sewer collection system of the Berkshire Heights, Chardon Township WWTP. As the weather deteriorates over the next few months there will be less connections completed.
- 2) Geauga County Department of Water Resources (GCDWR) has issued 48 permits. Please bear in mind that there is a six-month period that parcels should be tied in once the plant is in operation.
- 3) To date, 70 homeowners have submitted the required two estimates/quotes; once GCDWR notifies the homeowner of the authorized grant amount, he/she can contract with an installer, and return the permit application to GCDWR for processing.
- 4) Once enough homes are connected, there will be sufficient flow to begin wastewater plant operations. The WWTP was tested on 11/8/22 and is ready to begin operations. Until then, GCDWR will collect the sewage at the plant and haul to another plant with tankers for treatment.
- 5) Bi-monthly billing starts the date the home is connected to the sewer system.
- 6) Michael Kubrin, Engineering Technician, is GCDWR's point of contact for coordination and questions. His direct line is (440) 279-1984 or email: MKubrin@gcdwr.org. If unavailable, please email info@gcdwr.org or call (440) 279-1970.
- 7) Please note that GCDWR is no longer located on Center Street in Chardon. Our new address is 12611 Ravenwood Drive, Suite 390, Chardon, OH 44024-9340, the new building near UH Geauga, and GCDWR is on the third floor.

Please visit our website regularly or contact info@gcdwr.org.
