Chardon Township Wastewater Treatment Plant and Sewer Project Update

- 1) The County approved to fund the sewage lateral lines from the home to the sewer main in front of the parcels. Fees and septic abandonment are also included. Details of how this will be implemented are almost finalized and will be posted to the website shortly.
- 2) The County has not yet accepted the Chardon Township WWTP & Sewer construction project. The contractor is finishing the final punch list items and/or outstanding issues.
- 3) Residential lateral line tie-ins to the sewer main are not permitted to commence until the project has been accepted. Residents will be alerted, and guidance will be provided on the process of residential lateral line connection once the project is accepted. However, we do anticipate that residents that are ready to tie-in will be able to do so after 7/18/22; again, check this website for updates.
